COMPTON UNIFIED SCHOOL DISTRICT BOARD OF TRUSTEES
DECLARATION OF BELIEFS AND VISIONS

Acknowledging the long existing need to improve student achievement in the Compton Unified School District, and the current Program Improvement status of the district; the Board of Trustees establishes the following mission statement, state of the district declaration, core beliefs, and expectations for accountability:

To improve the performance of Compton students significantly, the trustees of the Compton Unified School District (CUSD) commit to an essential restructuring and reform of the district.

We acknowledge the effective work of thousands of talented, dedicated teachers, administrators, and other educators. We believe, however, that the district's performance can and must be improved.

We realize also that the serious urban problems that characterize most of America's largest cities also exist in Compton and spill into the schools. We realize that CUSD is a district comprised of diverse groups. We also know that even our best schools are not performing at world-class levels. We realize that CUSD students represent great diversity in terms of culture, ethnicity, language, and economic status. We believe that this rich cultural diversity requires flexibility and focused attention on the individual needs of students to achieve improved learning.

We make the following declaration relative to our current state:

1. ***The overall achievement level of our students must be improved***
2. ***The dropout rate is unacceptably high***
3. ***The district and its schools are overly regulated by compliance issues***
4. ***School safety must be improved***
5. ***We must develop family-friends schools, focused on increasing engagement of parents.***
6. ***The District is not responsive to the fundamental needs of our Community.***

We, the Board of Education, hold the following beliefs:

1. **We believe all children will learn at higher levels.**
The Compton Unified School District has the responsibility to provide the quality of education and a safe environment that allows every child to learn at higher levels. The capacity to learn is not determined or limited by race, family income, native language, gender or area of residence.
2. **We believe all children will reach their learning potential and that the achievement gap can be eliminated.**
The Compton Unified School District must provide equal access to quality education regardless of race, family income, gender, native language, special needs or area of residence. Providing equal access to high quality education for every child may require the investment of unequal resources to ensure an equitable outcome.
3. **We believe schools have an enormous impact on children's lives.**
To improve educational outcomes for all students, a highly qualified and effective teacher must be in every classroom, and every school must have a highly qualified and effective principal who is an instructional leader. Improving the educational outcomes for our students will require support from all segments of our community including parents, caregivers, businesses, elected and appointed officials, civic and faith-based organizations, along with the District's leaders, staff and students. Parents and caregivers are responsible for sending their children to school ready to learn, but the School District is responsible for educating all children regardless of family support or involvement. Children have an obligation to come to school ready to learn, but the District cannot abandon those who do not and must ensure that these students learn as well.
4. **We believe the Compton Unified School District will become a high performing organization.**
Sustainable reforms are possible only if parents have meaningful choices. The Compton Unified School District must develop effective partnerships with parents and caregivers - based upon trust and respect - that engage the District and the parents/caregiver in a plan of action to promote the "best interest" of the child.

All District activities will be measured by their ability to increase the academic achievement of students across the District in the most efficient and effective manner.

The District will launch, continue or expand only those efforts proven to raise student achievement here or demonstrated elsewhere. There are no "sacred cows."

To be sustainable, any reform must conform to realistic, strategic and financial plans.

COMPTON UNIFIED SCHOOL DISTRICT
DECLARATION OF BELIEFS AND VISIONS (cont.)

5. We believe that all children *shall* be educated in a safe and orderly environment.

In order to maintain such an environment in all schools of the District, high standards with regard to dress, behavior and attendance will be promulgated and enforced in all schools. In addition, violations of the established code of student conduct in the areas of drugs, weapon, and assaults on students or staff will result in severe consequences.

Success on this area is our only option, and we, as leaders of the school system, declare that safe schools, along with improved student achievement are our highest priorities.

The time has come for dramatic restructuring and reform. A new educational structure is required that:

1. *Is built on the relationship between the teacher and the student;*
2. *Features shared decision-making, and decentralized as academic progress is made and where it continues to flourish;*
3. *Is focused on performance, not compliance;*
4. *Requires a common core of academic subjects for all students;*
5. *Allows for the uniqueness of each school community*

As a Board, we have developed the following outline of our vision for an improved CUSD:

CUSD ACCOUNTABILITY: Effectiveness requires accountability at all levels of the organization (certificated and classified). We believe that our schools must be held accountable for student performance, and central office must be held accountable for direction, support and overall improved student achievement within the district. We believe that principal and teacher input is central and must be evidenced in all major decisions. We further believe that the best interest of our students must be at the center of all decisions, and that principals must be the leaders of that decision making-process. We further acknowledge that:

- ❖ The Board of Trustees must provide guidance and support to local schools by establishing clear goals, high standards, and effective systems of evaluation, while at the same time giving schools the opportunity to develop and implement methods that best achieve those goals as evidenced by student performance.
- ❖ The central office must become an enabler with a powerful focus on achievement especially in low performing schools. Its role must be training, consulting, providing resources, and evaluating. Evaluation is based in improved student achievement and professional growth.
- ❖ Schools must be responsive to their communities, providing parents and members of the community (and where appropriate, students) with formal, structured input into decision-making.
- ❖ Schools must bring a sense of urgency to using tools that result in improved achievement, using the California Standards as their goal.
- ❖ Schools will:
 - Be led by a strong and effective principal
Outstanding leadership will be the norm and not evidenced in only a few of our schools.
 - Function as teams
 - Collaboratively develop a vision for improved student achievement and a plan to achieve that vision
 - Establish a plan of accountability for all employees
